

WELCOME TO THE DESIGN STUDIO APP TUTORIAL

FH Brundle Design Studio App....

What is it?

- A fantastic new sales tool, that allows you to create your own wrought iron handrail and balustrade designs.
- No one else in the UK has a tool like this.
- You will be able to access this on a PC, laptop, iPad and iPad Mini.
- A virtual showroom on a PC, laptop or tablet that works on or offline.
- Instant part numbers for easy ordering.
- Hundreds of possible designs available with a few clicks.

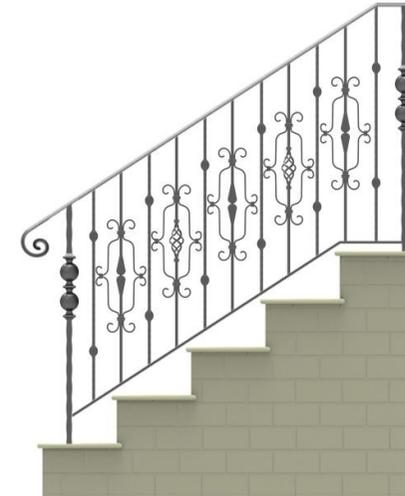

What do I need to use the app?

FH Brundle Design Studio is a totally **FREE** app.

To use the app all you have to make sure is that your web browser is up to date (i.e. Internet Explorer 7 – upwards or equivalent web browsers) and that you enter www.fhbrundle.co.uk into the address bar and click on the Design Studio app icon.

Other than that you are free to design the iron work you like.

What to do if I need help with the app?

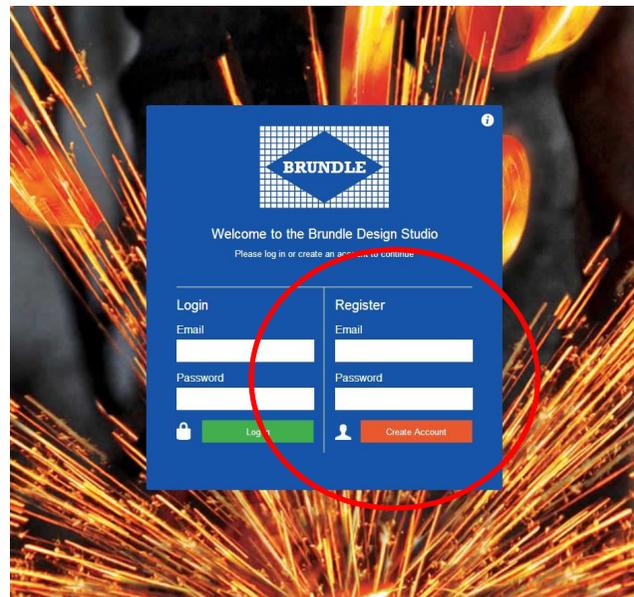

If you have any problems regarding designs, components, saving files, password issues or not sure how it works, etc. then call FH Brundle's Design office on 01282 834545, or email designstudio@brundle.com.

How to Create an Account and Log In....

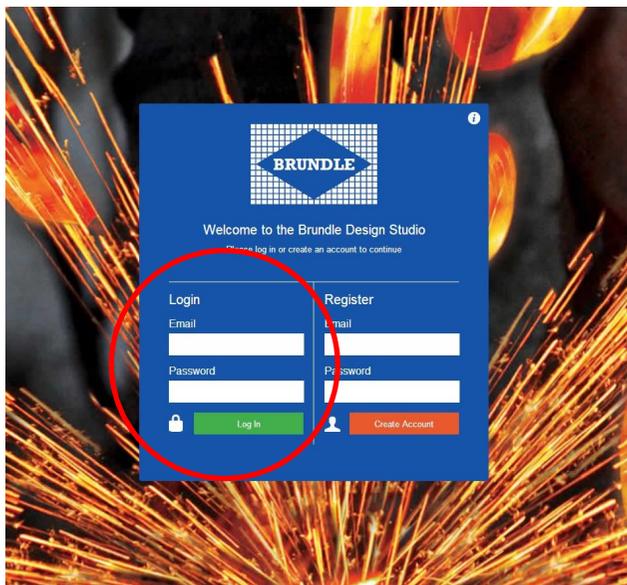

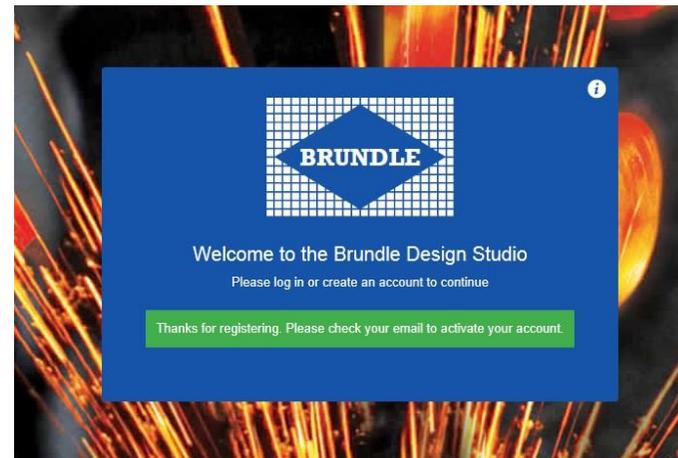

1. To create an account the first thing you need to do is go to the following website page.
www.designstudio.fhbrundle.co.uk
2. Enter your email address and a password in the right hand column and click
The "create account" button.

How to Create an Account and Log In....

3. You will then see the following display asking you to check your email, once you have received the email from FH Brundle Design Studio open it and click the link.

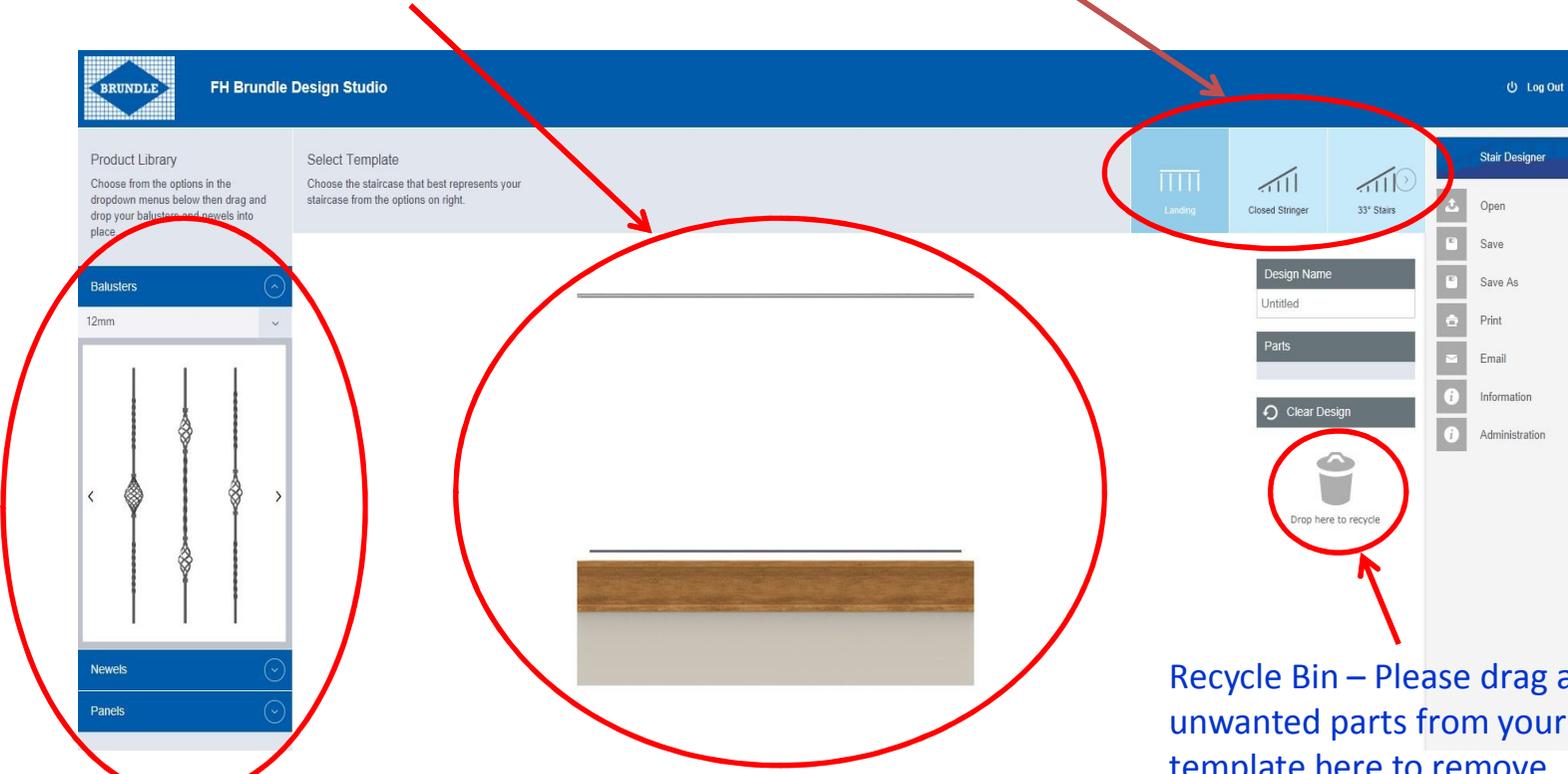

4. When you have done the above step you will be returned to the home screen. This time you need to enter the email address and password that you registered with but entering the details in the left hand column and then click the Log In button.

Using FH Brundle Design Studio....

Current Template – This is the template that has been selected using template selection.

Template Selection - Use arrows to scroll for more templates.

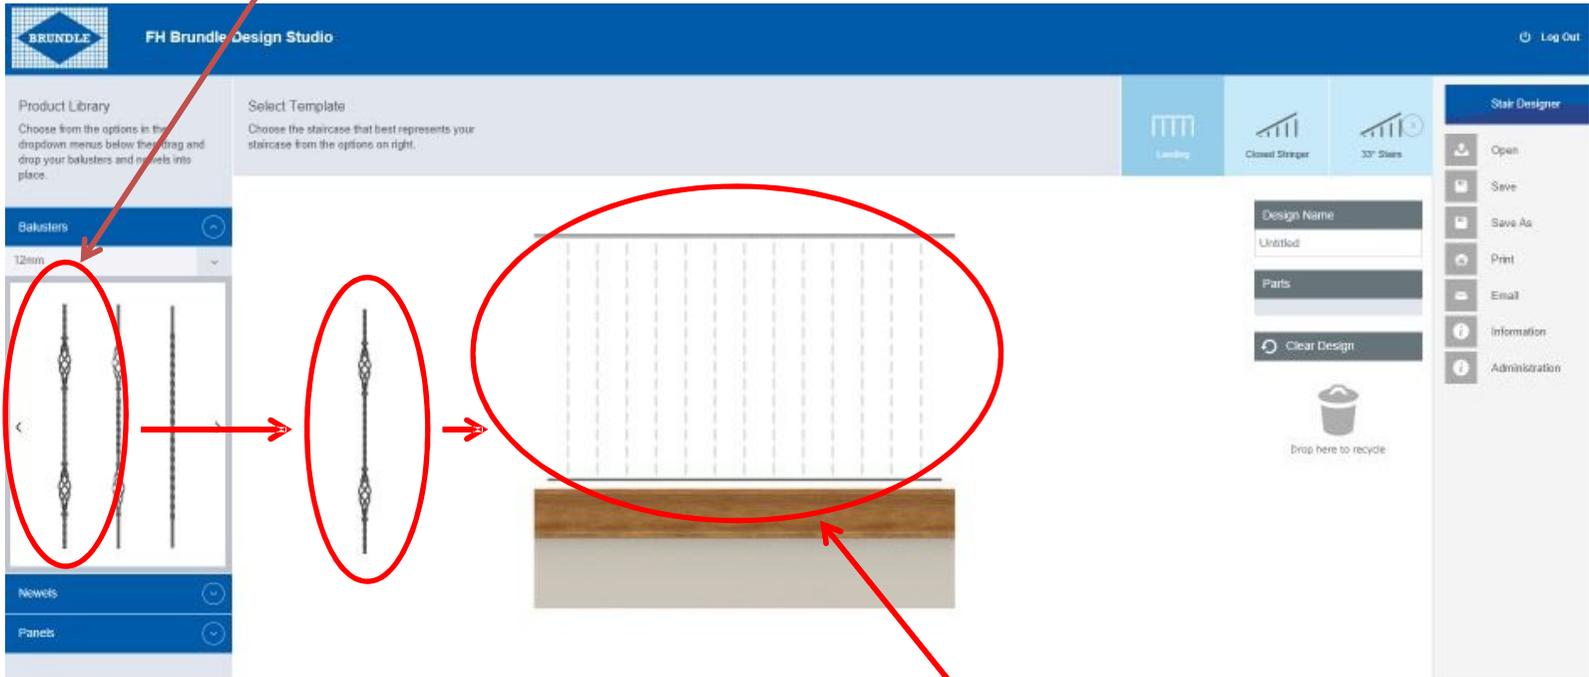

Product Selection – Choose which part you would like to have on your template by clicking and dragging the part over the template.

Recycle Bin – Please drag any unwanted parts from your template here to remove from your template.

Using FH Brundle Design Studio....

Choose your part from the library and drag towards the template and drop on one of the dotted lines.

Please Note: This example shows a bar being dragged into the template if it was a Newel this would have only let you select the outer lines.

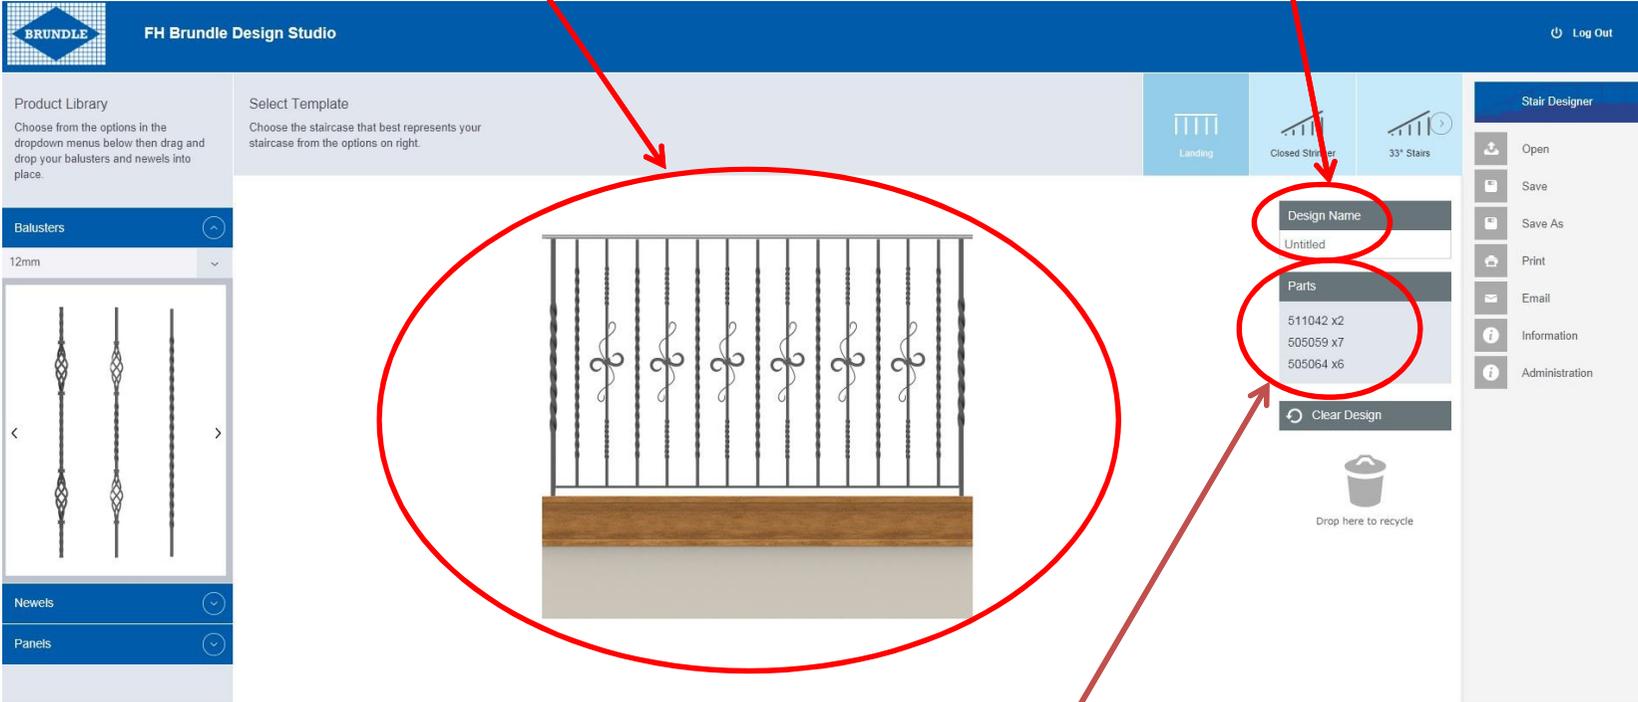

When you click and drag a part from the library a series of lines will indicate where you can drop that particular part.

Using FH Brundle Design Studio....

Current Template – This is the template that has had various parts dragged from the product library.

Design Name – Enter the name of your design.

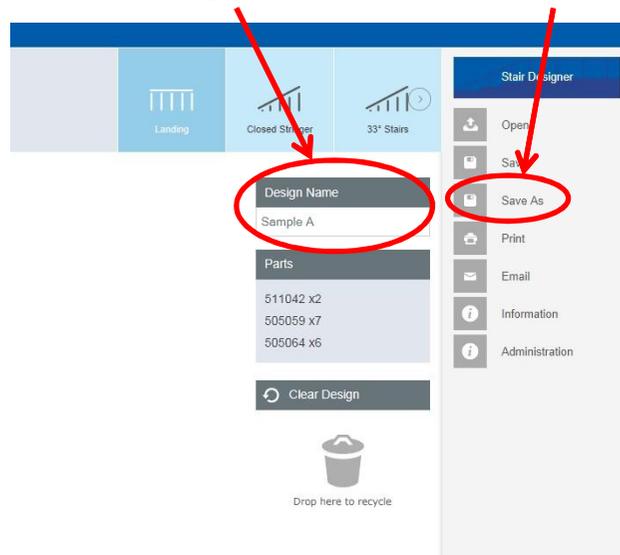

Parts List – This parts list includes everything that is on the template and automatically updates as you swap and change your parts. Part numbers are also listed to make it easier to order the components required to create your design.

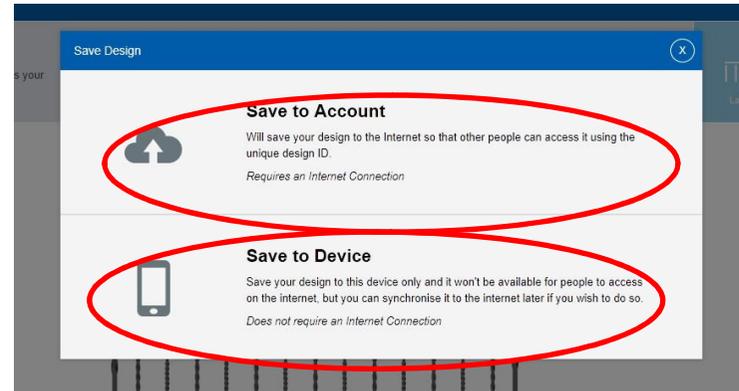

Saving Your Designs To The Account/Device....

1. Enter "Design Name" and click "Save As"

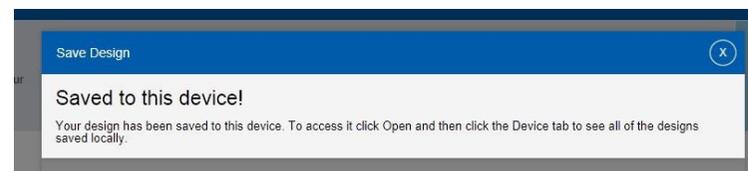

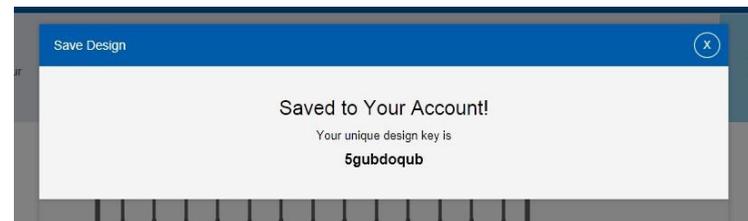

Please Note: If saving to your account you will be able to access your design from any device provided you remain logged in.

2. You will then be asked to save to either your Account or to the device you are using.

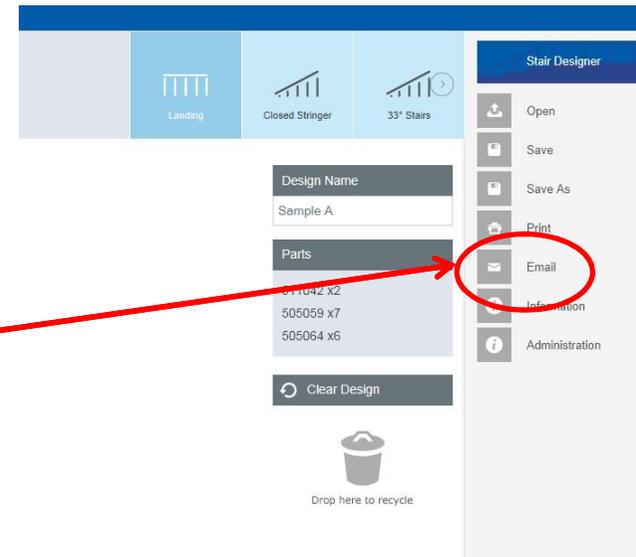

3. Once you have clicked on either of the above options you will be prompted with one of the messages below.

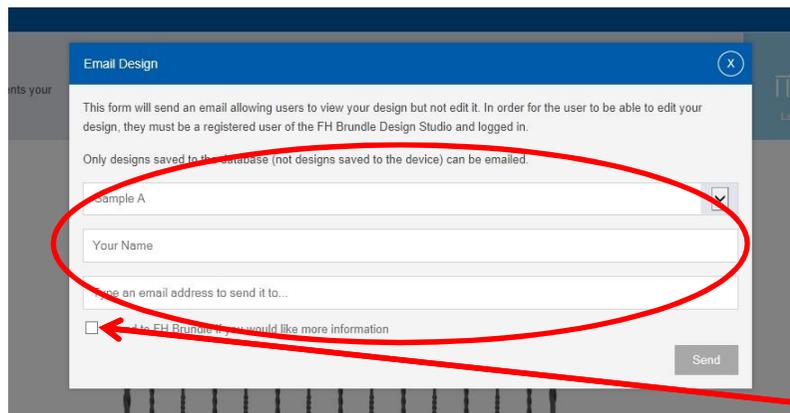

Emailing Your Designs To Customers/Friends....

1. You must follow the “Saving Your Design” steps on page 8 and save the design to your account.

2. Click on the email tab in the right hand column.

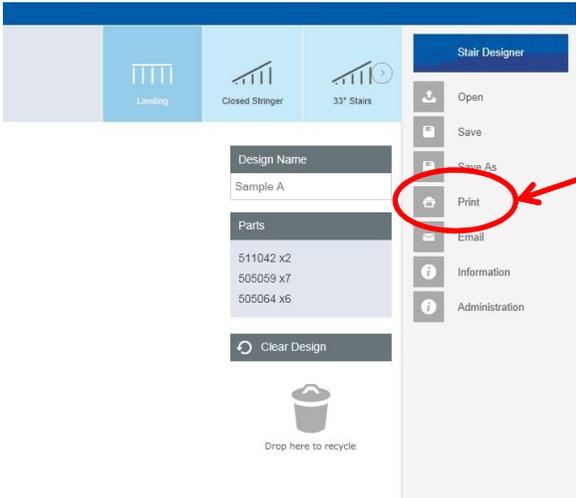

3. You will then see this message on your screen, asking you to select your design that you want to send. It also asks you to fill out your name and the email address of the person you want to send the design to. Once you have done all of this you can then select send.

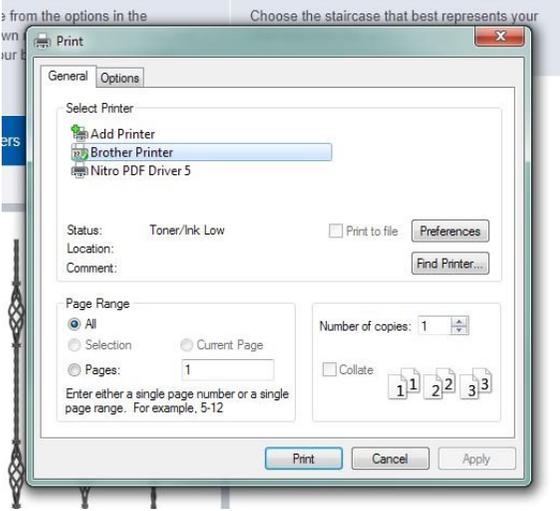

Please Note: You can select “Send to FH Brundle” on the email design screen if you would like further information on your design or would like any prices etc.

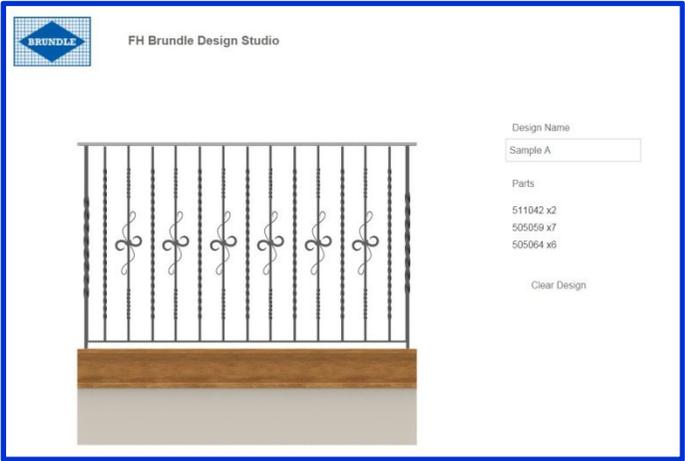

Printing Your Designs....

1. To print your design simply click on the print tab in the right hand column.

2. You will then be displayed a standard printer settings box where you would usually select your printer etc.

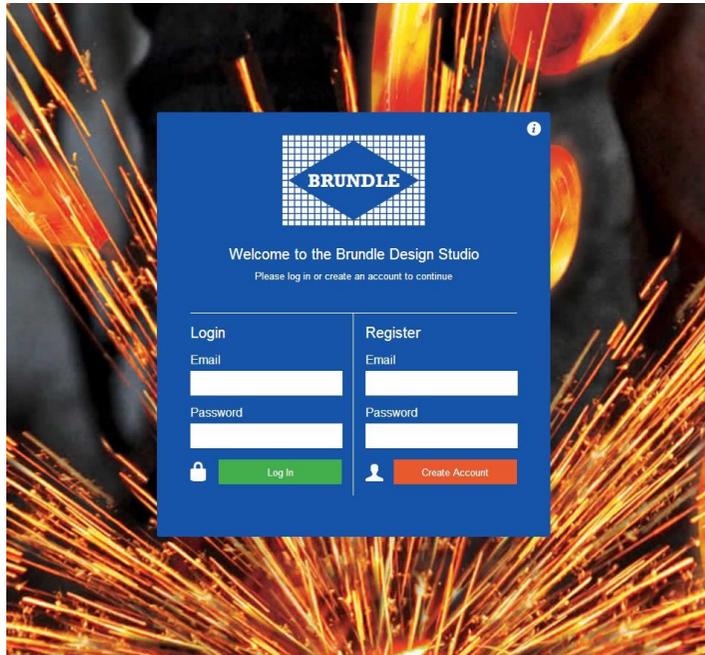

This is what your print out will look like, it will include the design, the name of your design and the parts list.

Using Design Studio Offline....

Make sure that you log in to your account using an active internet connection (If you are unsure how to do this please see page 2 & 3)

You will then be taken through to the main page, from here you can either leave the Design Studio on the screen and this will work without an internet connection,
or
minimize/hide the page but do not close; re-open as and when you need to use it.

Tip: Save “Design Studio” to your desktop or homepage and leave app open and logged in to allow offline use. If you log out or close the Design Studio you will need an internet connection to login again and use offline.

Please Note: To use the Design Studio app without an Internet connection you must follow the steps above.
