# OUR NEW WEBSITE HAS NOW LAUNCHED!

Here are just some of the new key features you can expect to find:

- Improved predictive search facility
- Find your exact requirements using the product filters
- Click and collect from our nationwide network of branches
- See what other customers are buying with the products you select
- Share and view baskets with colleagues and customers via email
- View the components and quantities used to build our metre rates
- Guidance metre prices on our range of handrailing systems
- Receive accurate delivery dates and stock availability when viewing your basket
- View CAD drawings, technical information and so much more....

# Steel Sections

As one of the UK's leading steel sections stockholders, F.H.Brundle is your go-to source for high-quality steel products for light steel construction applications. With a comprehensive range of square, flat, angle, and hollow sections, as well as round steel bars, universal steel columns and beams, channels, sheets, and plates, we have everything you need to complete your project. With our quick and competitive cut-to-size service, you can get exactly the sizes you need to fit your specifications.

## Columns, Beams & Channels

**Universal Column**

**Universal Beam**

**Channel**

**Rectangular Hollow**

## Hollow Sections

**Square Hollow**

**Circular Hollow**

**Flat Bar**

## Merchant Bar

**Square Bar**

**Round Bar**

**Half Round**

## Decorative Bar & Galvanised Tube

**Convex**

**Galvanised Tube**

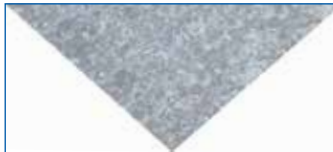

**CR4 Sheet**

## Sheets & Plates

**Galvanised Sheet**

**Hot Rolled Plate**

At F.H.Brundle, we take pride in the quality of our products. All of our steel products are grade S355, S275, and 500B, which means they are strong, durable, and able to withstand the demands of even the toughest construction projects. Plus, with our test certificates available on request, you can trust that our products meet the highest standards. Whether you're working on a large-scale construction project or a small-scale DIY project, F.H.Brundle has the steel products you need to get the job done right.

### Framed Infill Panels

Quick and easy to install, mesh infill panels help provide extra security in a handrail, balustrade or guardrail. We provide a range of mesh infill panels, and safety mesh for railings. Our galvanised single and double infill panels fit the 1.2m and 1.5m post centres of our pre-assembled Tube Clamp posts, and also our post protectors.

Gabions offer the most cost-effective and rapidly deployed solution for retaining wall systems. They are used in a huge range of situations including landscaping, to stabilising earth movement and canal refurbishment, all while achieving a robust yet natural look.

### Flat Pack Gabions

### Profiled & 'U' Edging Sections

Edging and Framing Sections are suitable for framing welded mesh, perforated and expanded metal sheets. They're an excellent way of fixing and protecting sheets of metal, as well as making them easier and safer to handle.

# Fortitude™ Steel Handrailing & Glass

Our most flexible handrailing solution, just became more flexible! As we edge into spring, not only are we implementing significant price reductions to our top-quality Fortitude™ handrailing system, we are also pleased to announce even more innovations to enhance the range.

This steel railing system brings an unparalleled quality to any patio deck or balcony. Giving a clean classic appearance that offers versatility in any residential application. Fortitude™ Contemplation posts and stocked glass panels, provide installers with a stunning glass balustrading solution, which can also be integrated with our traditional system, if you want a few glass panels to improve the view on a specific section of your installation.

## Black Sand 50mm Square Steel Posts - For Use Without Handrail

Where no handrail is used, the Contemplation Glass system will not pass BS 6180 loading requirements and should only be used in areas where the fall is no more than 600mm.

## 10 REASONS TO BUY FORTITUDE™ RAILINGS & GLASS

**1** Modular Railing System

**2** Adjustable Panel

**3** Concrete-In Posts

**4** Faster Installations

**5** Fascia-Fix Posts

**6** Enhanced Views

**7** Glass Panels From Stock

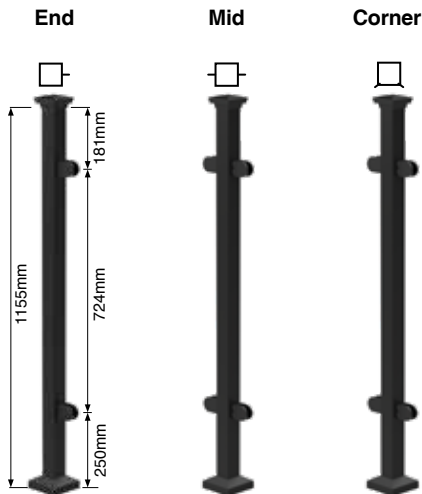

**8** Make Instant On-Site Gates

**9** Elegant Appearance

**10** Tested To Relevant British Standards
