

PRODUCT NAME

Spray can topcoats for touch up

PRODUCT DESCRIPTION

F.H Brundle supply a wide variety of aerosol spray cans which are available to help the customer finalise their finishing coat. These are used to cover any hard to reach places, plus to repair any small areas of damage which may have occurred during movement, transport or installation of goods.

AVAILABILITY

This product is a 400m rattle can.

FURTHER INFORMATION

On the next page is a list of all relevant spray cans supplied with relevant details.

*Due to the protective nature of the coating, some chalking may occur on exposure/weathering. This is aesthetic and will not deter from the performance of the product.

SURFACE PREPERATION AND APPLICATION

Ensure surface is free from rust, moisture, oil, or other surface contamination.

APPLICATION

Product should be applied at least 20cm away from surface and sprayed continuously at a fanning angle. To clean the nozzle, turn can upside down and spray until passageway is clear.

HEALTH & SAFETY

Refer to Spray can M.S.D.S. prior to use. These can be found under the relevant Product Codes on <https://www.fhbrundle.co.uk/>

Provide adequate ventilation. Prolonged skin contact inhalation of vapour must be avoided.

Eye contamination - Flush with eyewash or warm water for 10 mins.

Always clean hands after use.

Any person or company using this product without first making enquiries as to the suitability for the intended purpose does so at their own risk, and F.H. Brundle can accept no liability for the performance of the product or for any loss or damage arising out of such use.
